Letter No D 3 626/41 42 Dated 18 9 41, from the Dy Commr, Mysore Dt forwarding a list showing the Town Improvement grants & W S grants sanctioned during the current year to the various Municipalities in the Mysore Dt

1) Under water supply scheme, the D C requests that a sum of Rs 50,000/- may be earmarked for the Chamarajanagar water supply scheme which is under the consideration of Govt separately.

2) Regarding the Town Improvement Grants, the D.C recommends a sum of Rs 30,300/- & for the drainage & other town improvement works in the Mysore Dt during the current yr

3) There has been an considerable delay by the D C Mysore Dt in furnishing the recommendations for the W S & T I grants for the current yr. Kind attention is also invited, to the fact that the W.S grants have been already distributed & the file has been returned to the Minister for L.S.G. & P.H. Further the file relating to the distribution of T I grants has been already sent to the Minister under letter dated 19 ult requesting the D C proposals may perhaps be considered as & when definite proposals are received & grants given out of the reserves under the W S & T I grants for the current yr.

T I grants file sent to the Minister, Leg. The file stamp (the registry of D-C mentioning grant of Rs 3,500/- to Chamarajanagar) is seen sent already

H V NARAYANA RAO, ESQ , B A ,LL B ,
Secretary to the Government of Mysore
Law Department, *BANGALORE*

SIR

I have the honour to address this letter regarding the grants required during the current year for Town Improvement Works and Water Supply Schemes in this District

NANJANGUD TOWN MUNICIPALITY -

The Muncipal Council have asked for a grant equal to a moiety of the cost in respect of the undermentioned works:-

	Works	Estimated cost
1	Opening out Conservancy lanes and relieving congestion	Rs 13,503/-
2	Construction of Vegetable Market	Rs 15,000/-
3	Construction of Combined Town Hall, Municipal Library and Municipal Office	Rs 25,000/-
4	Drainage Scheme	Rs 32,450/-
5	Construction of underground drainage in the Bazaar Street	Rs 9,600/-
	TOTAL	Rs 95,553/-

The Municipal Council have exhausted their cash resources and have resolved that the Government be approached with a request to treat the Municipal quotas in respect of the above works as a loan from Government repayable in easy annual instalments

As regards items 1, 2 and 3 no regular plans and estimates have yet been prepared, either by the Public Works Department or, by the Bureau of Sanitary Engineering I believe, the preparation of such plans and estimates is an essential preliminary

to approach Government for a grant I have asked the President, Municipal Council, to take action accordingly In the meanwhile, the consideration of these Schemes will have to be deferred

Item 4 relates to the Drainage Scheme The estimate for Rs 32,450/- has already been sanctioned by Government Last year, the first stage of the Scheme at a cost of Rs 16,000/- was carried out, the Government and the Municipality contributing in equal proportions The second stage of the Scheme costs Rs 16,450/- of which the Government quota is Rs 8225/- In the Municipal Budget for the current year sanctioned in G O No L 2196-97/M1 37-41-8 dated the 10th September 1941, there is a provision of - Rs 16,225/- for completing the Scheme In the same Government Order, Government have sanctioned their quota equal to Rs 8,110/- This quota has to be met out of the Town Improvement Grants for the current year

The fifth item relates to the construction of under-ground drainage in the Bazaar Street This is an urgent work calculated to improve the health and sanitation of the Town The estimate for - Rs 9,600/- prepared by the Bureau of Sanitary Engineering, has been countersigned by the President, Municipal Council and returned to the Director of Health I have requested the latter to submit the estimate to Government for sanction Half the cost amounting to Rs 4,800/- may be kindly given as a grant to the Municipality The latter has exhausted its cash resources In view of the urgency of the work, it is suggested that the Municipal quota also be borne by the Government in the first instance and treated as a loan to the Municipality recoverable in ten annual in-

-stalments

carrying interest at 4½% This was the course adopted while sanctioning the duplication of the water supplying machine (Vide G O No L 6164-66/M1 98-40-13 dated the 18th February 1941)

1 ALLOTMENT OF TOWN IMPROVEMENT GRANT FOR CARRYING OUT SOME IMPROVEMENT WORKS IN THE TOWN -

The estimated value of these works is Rs 10,000/- They relate to the Tour Notes of the Dewan and the First Member of Council Kind reference is invited to correspondence ending with my letter No D3-466/40-41 dated the 16th June 1941 Full details of these works are furnished in the report of the President - No 365 dated the 29th June 1940 sent as enclosure to my letter No 466/40 dated the 18th September 1940 The Municipality is in a position to finance these works during the current year I request that an allotment of Rs 5,000/- be sanctioned out of the Town Improvement grants

2 DRAINAGE SCHEME -

The Bureau of Sanitary Engineering have prepared an estimate for Rs 1,02,180/- for a comprehensive Scheme of drainage Five stages of the Scheme have been already executed Regarding the execution of the further stages of the Scheme at an estimated cost of Rs 44,760/-, Government have stated in the last para of their Order No L 5068-71/M1 111-39-24 dated the 6th January 1941 that the programme of expenditure would be fixed with reference to the funds provided in the Municipal Budget and the provision made in the State Budget In the current years Municipal Budget, no provision has been made for this purpose, but, the Municipality has enough funds It is prepared to spend Rs 10,000/- this year I have requested the Director of Health to obtain the sanction of Government for the estimates relating to the further stages of the Scheme to the extent of Rs 20,000/- Rs 10,000/- may be given as a grant this year for this work

The finances of this Municipality are in a bad state and it is not in a position to undertake any town improvement work out of its own resources When the Minister for Local Self-Government paid a visit to the Town on the 15th of August 1941, the Adikarnataka inhabitants made strong representations regarding the urgent need for improving the drainage in their locality The Municipal Councillors pleaded want of funds and requested an out-right grant from Government for effecting improvements ih this locality The Minister promised sympathetic consideration An out-right grant of Rs 2,500/- during the current year is suggested

In distributing the Town Improvement grants for last year, Government, in their Order No L 1736-48/M1 53-40-12 dated the 27th August 1940 gave an allotment of Rs 3,000/- for effecting improvements in this highly congested, but important Town subject to the Municipality contributing an equal sum The Municipality has now paid its share when detailed estimates were prepared, it was discovered that Rs 6,000/- was totally inadequate to carry out the contemplated improvements The Municipal Council are prepared to give a further grant of Rs 3,000/- during the current year and they request that an equal sum be given from the Town Improvement grant In my opinion, the need for relieving congestion in this Town is very great and urgent I, accordingly, recommend that a grant of Rs 3,000/- be given to this Municipality during the current year

The remaining Minor Municipal Councils also have applied for Town Improvement grants this year

I do not, however, propose to give details of the works for which they have asked for grants as last year, a lumpsum allotment was given to each District for distribution among the Minor Municipalities There are thirteen Minor Municipalities in this District and the allotment of Rs 3,000/- given last year was totally inadequate to finance the many urgent schemes pending execution in these Municipalities It is suggested that this allotment be raised to Rs 5,000/- during the current year

- Under Water Supply Scheme, the only scheme which is ready for sanction is the one relating to Chamarajanagar Town Municipality A detailed report on this subject was submitted to Government in this Office letter No D3-810/39 dated the 13th May 1941 The estimate for - Rs 1,32,200/- prepared by the Sanitary Department was returned by Government for revision (Vide Law Secretary's letter No L 1047 dated the 4th August 1941) It has been sent to the Director of Public Health for purposes of revision He has not yet sent the revised estimate He has been requested to expedite the transmission of the revised estimate Pending sanction to the revised estimate, it is suggested that a sum of Rs 50,000/- be earmarked for this work out of the water supply grant for the current year

The following is a summary of the requirements of this District under Town Improvement Grants excluding those items which have already been sanctioned by Government

(Continued on next page)

Name of the Municipality	Work	Amount of Government grant	Loan to Municipality
		Rs	Rs
1	2	3	4
Nanjangud	Under-ground drainage in the Bazaar Street	4,800/-	4,800/-
X Chamarajanagar	Town Improvement works	X 5,000/-	-
	Drainage Scheme	10,000/-	-
Hunsur	Improving drainage in Adikarnataka locality	2,500/-	-
Bannur	Relieving congestion	3,000/-	-
Other Minor Municipal Councils	For Town improvement works	5,000/-(lump-sum)	
	TOTAL	30,300/-	4,800/-

This file has been referred to the Minister above

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Mysore District
